SUBCLASS FEATURES

FOUNDATION

Technical Machine (1 TM)

During a downtime action, craft 1 TM — a physical invention you describe narratively (a jetpack, a signal device, a modified lens). Built for one specific Pokémon, holding one specific domain card function. When equipped, choose one: Cross-type — swap one of your Pokémon's domain cards for a domain card of any type. Overreach — take one domain card one level higher than your current tier in your Pokémon's own type. Reprogramming to a different domain card requires a long rest.

SPECIALIZATION

Technical Machine (2 TMs)

You can now craft and maintain up to 2 TMs simultaneously. Each TM is built for one specific Pokémon and holds one specific domain card function at a time.

MASTERY

Technical Machine (3 TMs)

You can now craft and maintain up to 3 TMs simultaneously. Each TM is built for one specific Pokémon and holds one specific domain card function at a time.
